# CORIAN® & YOUR KITCHEN

Your kitchen is where you come together to cook, eat, share and entertain.

Smooth and visually seamless, Corian® is a pleasure to touch and enjoy everyday. Joins are inconspicuous, preserving the clean lines of your kitchen as well as ensuring that the surfaces are hygienic and easy care.

The Evolution of Surfaces Sink Collection embodies all of the exceptional qualities of Corian® – being tactile, seamless, hygienic, renewable – and combined with your Corian® benchtop will deliver a beautifully sleek look.

The unique properties that make choosing Corian® for your surface a wise decision also apply to sinks made from Corian®.

These sinks are moulded from exactly the same material and have all of the same benefits.

Visually, using these sinks delivers a flowing look, as they are fully integrated into your Corian® surface. This highly sophisticated combination has been used extensively in Europe for many years and is a growing trend in New Zealand.

## DESIGNED AND MADE TO LAST

Corian's® advanced blend of natural minerals and resilient acrylic resin is guaranteed to last. So well in fact, that both the benchtop surface and matching sink are backed by the 10 Year Residential Transferable Installed Warranty.

Corian® colours and patterns won't wear off or fade. A subtle lustre will develop on your Corian® surface over time.

## MORE THAN JUST SURFACE BEAUTY

Corian® is completely non-porous and stain resistant – so it's safe and hygienic, resisting mould, mildew and bacteria. And its seamless construction minimises nooks and crannies that can trap dirt.

Your Corian® benchtop and sink are made to be used as well as admired. To ensure that it stays as beautiful and as durable as the day it was installed, information on how to care for your Corian® is available in the Corian® Care Guide – “Love Your Corian®”.

# DUO & PURE CORIAN® SINKS

## TWO STUNNING OPTIONS

Evolution of Surface offers two sink ranges which feature Corian®: the DUO sink range which feature a contemporary combination of Corian® sides (available in a range of the most popular colours and patterns as well as white) and high quality stainless steel, and the PURE Corian® sink range which are elegant all-in-one sinks with moulded Corian® sides and base.

RAIN CLOUD | DUO 023 & 027

# DUO SINK RANGE - CONTEMPORARY

The Evolution of Surfaces DUO Sink Contemporary Range features the elegant combination of Corian® and stainless steel.

These sinks deliver the best of both worlds – the beauty of seamless integration with your Corian® benchtop and the durability of high grade stainless steel which resists heat (so it is safe to use with instant boiling water taps). The tight radius corners of the DUO 023, DUO 024 and DUO 027 ensure a contemporary look.

DUO Contemporary sinks are available in a range of the top selling Corian® benchtop colours. This enables a continuous flow of colour and pattern from your benchtop into your sink.

DUO Contemporary sinks come in three versatile sizes, enabling you to mix and match them to suit the layout of your kitchen.

An easy-clean join where the Corian® and stainless steel meet makes cleaning simple and quick. The

overflow featuring an anti-blocking design is practical yet sleek and streamlined.

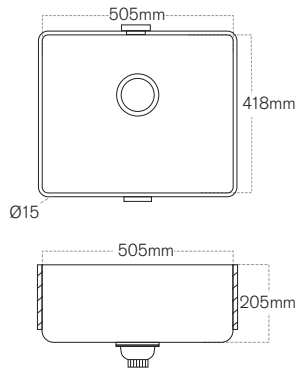

The stainless steel base has a noise reducing coating and an anti-vibration pad on the underside.

A 10 Year Residential Transferable Installed Warranty backs up these high quality sinks. Please note – the use of in sink garbage disposals are not warranted with the DUO sink range.

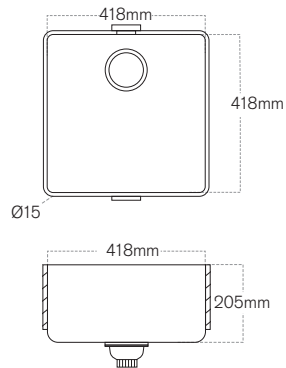

# DUO SINK RANGE - CONTEMPORARY DESIGN CONSIDERATIONS

- All DUO sinks must be under-mounted
- All DUO sinks come with basket wastes and overflow kits
- DUO sinks are warranted for use with instant boiling hot water taps
- DUO sinks are NOT warranted for use with in sink garbage disposals
- Further technical information is available at [corian.co.nz](http://corian.co.nz)

# DUO SINK RANGE - CLASSIC

The Evolution of Surfaces DUO Classic Sink Range features the elegant combination of Corian® and stainless steel.

These sinks deliver the best of both worlds – the beauty of seamless integration with your Corian® benchtop and the durability of high grade stainless steel which resists heat (so it is safe to use with instant boiling hot water taps). The wider radius corners of the DUO 013 and DUO 014 ensure a classic look.

These stunning DUO Classic sinks are available in Corian® Pearl only. This enables a continuous flow of the colour and pattern from your Corian® Pearl benchtop into your DUO Classic sink.

DUO Classic sinks come in two versatile sizes, enabling you to mix and match them to suit the layout of your kitchen.

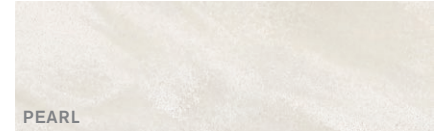

An easy-clean join where the Corian® and stainless steel meet makes cleaning simple and quick. The overflow featuring an anti-blocking design is practical yet sleek and streamlined.

The stainless steel base has a noise reducing coating and an anti-vibration pad on the underside.

A 10 Year Residential Transferable Installed Warranty backs up these high quality sinks. Please note – the use of in sink garbage disposals are not warranted with the DUO sink range.

GLACIER WHITE | PURE CORIAN® 965 - MAGGIE MCGUIRE

# PURE CORIAN® SINK RANGE

For a totally seamless and integrated aesthetic, choose from the PURE Corian® sink range. Made from 100% Corian® and available in Glacier White, these sinks will appeal to the purist designer and homeowner.

## THERE ARE TWO STYLES TO CHOOSE FROM:

### **PURE Corian® 965, PURE Corian® 966 and PURE Corian® 970**

Contemporary look with tight radius corners.

### **PURE Corian® 804**

Classic shape with wider radius corners.

This range of sinks all come without an overflow as the standard option. However, overflows can be added by your Authorised Corian® Fabricator.

These PURE Corian® sinks come in a range of versatile sizes, enabling you to mix and match them to suit the layout of your kitchen (or laundry).

A 10 Year Residential Transferable Installed Warranty backs up these high quality sinks. Please note – the use of instant boiling hot water taps is not warranted with the PURE Corian® sink range.

# CORIAN® & YOUR BATHROOM

Bathrooms have come a long way and are now just as important as your kitchen when considering design and durability.

Smooth and visually seamless, Corian® is a pleasure to touch and enjoy everyday. Joins are inconspicuous, preserving the clean lines of your kitchen as well as ensuring that the surfaces are hygienic and easy care.

The Evolution of Surfaces Basins Collection embodies all of the exceptional qualities of Corian® – being tactile, seamless, hygienic, renewable – and combined with your Corian® vanity top will deliver a beautifully sleek look.

The unique properties that make choosing Corian® for your surface a wise decision also apply to basins made from Corian®.

These basins are moulded from exactly the same material and have all of the same benefits.

Visually, using these basins delivers a flowing look, as they are fully integrated into your Corian® surface. This highly sophisticated look has been used extensively in Europe for many years and is a growing trend in New Zealand.

## DESIGNED AND MADE TO LAST

Corian's® advanced blend of natural minerals and resilient acrylic resin is guaranteed to last. So well in fact, that both the vanity top surface and matching basin are backed by the 10 Year Residential Transferable Installed Warranty.

Corian® colours and patterns won't wear off or fade. A subtle lustre will develop on your Corian® surface over time.

## MORE THAN JUST SURFACE BEAUTY

Corian® is completely non-porous and stain resistant – so it's safe and hygienic, resisting mould, mildew and bacteria. And it's seamless construction minimises nooks and crannies that can trap dirt.

Your Corian® vanity top and basin are made to be used as well as admired. To ensure that it stays as beautiful and as durable as the day it was installed, information on how to care for your Corian® is available in the Corian® Care Guide – “Love Your Corian®”.

# EOS BASIN RANGE

EOS basins in Corian® deliver the purity of a sleek and seamless design aesthetic enlivened with sophisticated colours and patterns.

## **THERE ARE TWO MAIN STYLES TO CHOOSE FROM:**

### **PWB202A**

Sculptural on-bench vessels.

### **PWB304 and PWB309**

Elegant ovals giving you a choice of size.

EOS basins integrate perfectly into a Corian® vanity top of the same Corian® colour, they are versatile and can be mixed and matched with the other Corian® colours and patterns, or even timber.

Each of these basins comes complete with an elegant overflow and are backed up by a 10 Year Residential Transferable Installed Warranty.

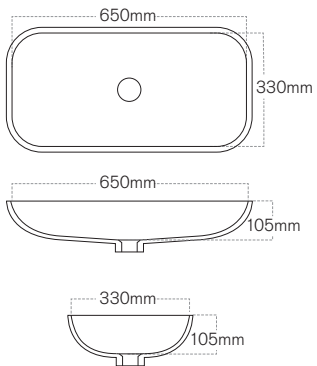

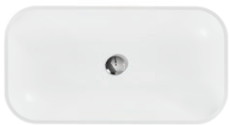

# EOS BASINS

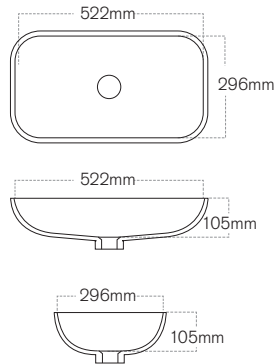

## DESIGN CONSIDERATIONS

- Vanity basins can be under-mounted or on-bench (PWB304 and PWB309 on-bench recommendations are Designer White, Glacier White & Pearl)
- All vanity basins come with overflows and overflow kits
- Matching Corian® waste covers are available in each Corian® colour
- Further technical information is available at [corian.co.nz](http://corian.co.nz)

SOLID SURFACES

## DESIGN & COLOUR CONSIDERATIONS

When choosing your Corian® colours and patterns for surfaces, sinks and basins, please keep in mind that, like most materials, dark and heavily pigmented colours are more sensitive and require more care and attention to maintain their look. Dark colours tend to show everyday wear and tear more readily in high-use horizontal areas such as kitchen benchtops.

DuPont™ Corian® Organics colours feature a grain and colour pattern which in certain large benchtop designs may show the grain pattern change along the join area. This grain pattern change may also show on the join with the DUO sinks and EOS basins.

## AUTHORISED CORIAN® FABRICATION NETWORK

The fabrication and installation of Corian® surfaces is limited to Authorised Corian® Fabricators only.

These carefully selected businesses meet a number of standards including (but not limited to) specialised training. The use of this network ensures the ongoing high-quality levels of fabrication, installation and overall service.

Please contact us for an Authorised Corian® Fabricator in your area. For further details, please go to [corian.co.nz](http://corian.co.nz).

## 10 YEAR RESIDENTIAL TRANSFERABLE INSTALLED WARRANTY

DuPont™ and Evolution of Surfaces are so confident about the quality and longevity of Corian® - including the sink and basin collection - that they offer a

10 Year Residential Transferable Installed Warranty. This covers all residential Corian® product including fabrication and installation, as per the Corian® Warranty. This warranty is detailed in the Corian® Care Guide (Love Your Corian®) and at [corian.co.nz](http://corian.co.nz).

The warranty is transferable, meaning that if you sell your home, the remainder of the 10 Year Residential Installed Warranty is still available to the new owner. This is just another unique benefit of Corian®.

## CORIAN® CUSTOMER CARE

As the New Zealand Distributors of Corian® products, Evolution of Surfaces Ltd. is committed to the highest levels of customer service. For answers to your questions, or to find the Authorised Corian® Fabricator nearest you, please call our Customer Care line on:
